Titan Hembar

Track

78mm Roller Tube

Polar Shades® Patriot Hood Manual or Motorized Retractable Shades provide a heftier look with the ability to cover spans of up to 20 feet and heights of 18 feet. These shades may also be coupled to accommodate wider spans. Even though it's a little bigger than the 4" ELITE, it certainly lives up to its name for being able to handle the big jobs that need the extra width and height.

Open roll or optional Curved Hood is available. The Curved Hood housing and hardware is available in 5 standard colors, but can be custom powder coated to meet any color needs. Polar Shades® also provides a full line of fabric choices in a variety of colors to match any home's exterior.
