

## INTERIOR ROLLER SHADE VALANCE OPTIONS

### Square Fascia Valance – 3”, 4”, 5” and 7”

This contemporary valance is in the shape of an L and covers the front and bottom of the roller by conveniently snapping on to the accompanying fascia brackets. Outside mount fascias will include endcaps. Inside mount fascias will include endcaps/bracket covers only when specified with order. Please note that Polar Shades does NOT take additional deductions for inside mount shades ordered with endcaps/bracket covers.

Fabric Roll: Standard Roll and Reverse Roll

3” & 4” Colors: Clear Anodized, White, Tan, Bronze and Black

5” Colors: Clear Anodized, White, Tan, Bronze and Black

7” Colors: Clear Anodized, White, Tan, Bronze and Black

*Custom colors available for a surcharge.*

Endcaps/Bracket Covers are PVC and available in Grey, White, Tan, Bronze, Black

3” Max. Width: 96”

Max. Length: 120” (1.5” roller tube)

4” Max. Width: 144”

Max. Length: 120” (63mm roller tube) & 144” (2” roller tube)

5” Max. Width: 192”

Max. Length: 180” (single shade) (78mm roller tube)

7” Max. Width: 192”

Max. Length: 240” (single shade) (78mm roller tube)

**Note:** *Varies by fabric style.*

**Fabric Wrapped Fascia:** Surcharge pricing is double the cost of the fascia price. Endcaps/Bracket covers will be fabric wrapped. Inside mount will be designed without endcaps/bracket covers unless specified.

**Curved Cassette**

The ultimate option for sleek, finished look. The curved front silhouette with fabric insert blends nicely with contemporary interior design trends. The 3 1/2" x 3 1/10" aluminum extrusion provides space for fabric rolls up to 3" in diameter. Snap-in mounting brackets enable swift installation. Internal brackets allow the cassette to be used with 16 lb. clutch or DC motor.

Fabric Roll: Standard Roll

Colors: Clear Anodized, White, Ivory, Brown and Black and fabric wrapped

**Note:** Endcaps are PVC and are designed for closest but not exact match to all standard colors. Custom color or fabric wrapped cassette boxes will be paired with best standard color or as specified by customer.

Mount: Inside or Outside

Max. Width: 96" Max. Length: 96"

**Note:** Varies by fabric style.

**Head Pocket**

A three-sided aluminum pocket that covers the front, top and back of the roller shade. A Closure Plate is available to conceal the bottom. Head pocket may be surface mounted or recessed into the ceiling.

Fabric Roll: Standard and Reverse Roll

Colors: Anodized, White

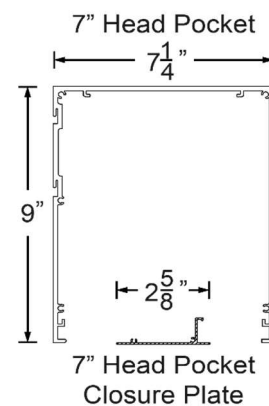

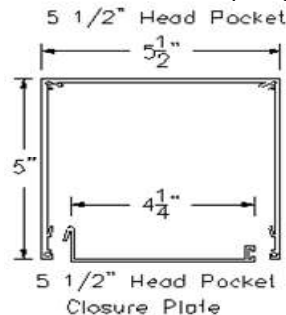

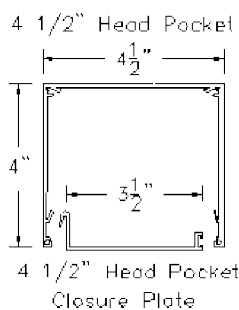

**Note:** Custom colors available for a surcharge.

Dimensions Available:

4 1/2" x 4" Only for Manual or LV Shades – Max Width 108", Max Height 108"

5 1/2" x 5" Available for all shades – Max Width 216", Max Height 120"

7 1/4" x 9" Available for all shades – Max Width w/o Splicing 216", Max Height 168"

**Mount Strip Wall Hanger with Closure Plate**

An aluminum extrusion that is installed at the bottom of a dry soffit to conceal the bottom roller. It should be drilled into the front of the drywall soffit (pocket).

Fabric Roll: Standard and Reverse Roll

Colors: Mount Strip – Anodized, White, RAL  
Closure Plate – Anodized, White, RAL

Mount: Inside

Max. Width: 240"

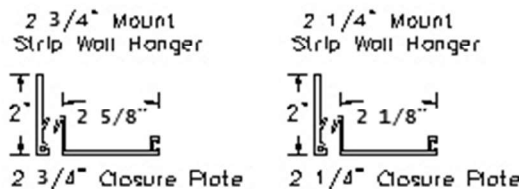

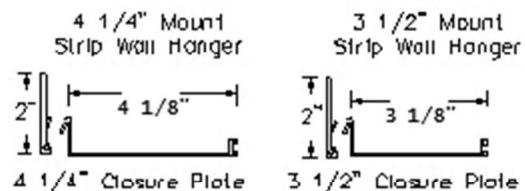

Dimensions Available:

4 1/8" Finished Size

3 1/8" Finished Size

2 5/8" Finished Size (16' max)

2 1/8" Finished Size (16' max)

### Side and Sill Channels

This "U" shaped aluminum extrusion is used to minimize light gaps at right, left and bottom edges of the roller shade. Light blocking brush is included with these channels to help minimize light seepage. These channels are typically used for applications where complete blackout of light is desired.

1.5" x .875" – Typically used for manual or low voltage motorized shades except 504 DC

2.5" x .9" – Typically used for AC motorized shades and 504 DC

2.5" x .9" – Used for Sill channel

Channels are available in Anodized, White, Tan, Bronze and Black.
