

MEGA SHADE

The ultimate enhancement for an amazing outdoor living experience, the Polar Shades Mega Shade converts the most expansive outdoor living spaces into beautiful outdoor rooms!

- Covering up to 24' in width measured end cap to end cap and 14' in height, from top of shade to bottom of Hembar, the Mega Shade takes sun and weather control to new heights.
- 4.75"/120.65mm diameter roll tube with our exclusive interior channel construction to mitigate deflection.
- Designed as an open roll for recessed applications or select the Patriot Hood or 7" X 9" Angular Head Box to enclose.
- Patriot Hood and Guide Hardware are available in five standard colors: White, Bronze, Sand, Camel, Tan and RAL custom colors.
- Head Box is available in White, Anodized and RAL custom colors.
- Available guide options include ZipRite Track, Side Channel and Cable Guides.
- Available with MOTORIZED operation only (A/C or Solar), with units powered by Somfy, the premier motor in the industry. Motorization communication options include Standard, RTS and RS485.
- Available with the most extensive fabric selection in the industry including clear vinyl window integration.
- Fabric seams are always welded horizontally with the exception of Acrylic fabrics which are sewn vertically.
- Standard seam placement will be as high as possible or placement

can be specified. Seam placement is measured from the bottom of the Hembar.

- Units may be wall mounted or soffit mounted depending on valance.

- Valance, Track and Hembar Hardware is extruded aluminum.
- Fabric gap with guides is approximately ¼" (edge of fabric to track).
- Stainless Steel Fasteners.
- Limited Lifetime Warranty.
